JANUARY 2002 Newsletter

Issue 1

**The Next Meeting is 7 pm, January 30th at the Al Bahr Temple, 5440 Kearny Mesa Rd.
Behind the Hampton Inn.**

**As more members are attending meetings, parking is becoming tighter, please consider
sharing a ride with another member.**

From the President...

Hello everyone and Happy New Year. The year is just getting started and we have a lot happening already. First and foremost, it is time to renew your membership. New cards of a different color are being issued again this year and you will need a new card to continue to get those great discounts from our sponsors.

Over the last few years I have been privileged to meet many woodworkers from around the country. They are always amazed at the size of our organization and the amount of activities we have throughout the year. No other place in the country offers woodworkers as much as we have here in San Diego. We have local resources that others can only access through catalogs. We have 25 local sponsors and the list keeps growing! We also have one of the finest woodworking programs in the country at Palomar College offering everything from building furniture to guitar making. I guess one could say we are in "woodworking heaven". The San Diego Fine Woodworking Association has grown over the years to become the top woodworking organization in the country, if not the world, and I am honored to serve as your president. Of course the biggest asset our organization has are you, its members. Volunteers make the organization and woodworkers make great volunteers. Volunteering is also a good way to get to know your fellow woodworkers. So if you feel that you can contribute let us know. We are still looking for volunteers including a publicity chairman and special events chairman.

Planning has already started on our spring bus trip and fall seminar. Vice President Bill Kohr did an excellent job last year and he is taking charge again this year. We will have more on this in the near future.

The Del Mar Fair Design in Wood show committee held its first planning meeting and is off to a great start. Bob Stevenson returns again this year as show chairman. The Design in Wood show has grown to become one of the top woodworking shows in the country. We were covered in every major publication last year and we expect the same this year. As the show has grown, so has the competition. Competing against some of the top professional woodworkers in the country is tough. However, it is a SDFWA event and we want to encourage more entries from the association. So this year we are adding a new category exclusively for SDFWA members who have not previously won an award. This is meant to be an entry-level category for the amateur woodworker. We feel that once you have won an award you move into a higher category. We will still have first, second and third place awards for SDFWA members that will be judged against everyone. Bob has the details in his report. So get to work on those projects. The Design In Wood show is our biggest event of the year and we need lots of help during setup and tear down. No special skill needed here, just a strong back, a screw gun, and a willingness to help.

PAST, The Association for the Preservation of the Arts and Trades is holding its annual meeting January 24, 25 and 26. This is a great place to pick up that tool you always wanted but couldn't find. This year's auction promises to be the biggest and best ever.

As you can see, there is a lot of activity and we are planning a great year. Get those fair projects started and remember to bring something for the brag table. See you at the next meeting.

Ed Gladney, President

January Program

For our January 2002 meeting we will be presenting work and furniture and adventures of Ellen Gibson of Boston, Massachusetts. Ellen, formerly the shop teacher for Mass. College of Art, is a furniture maker, a sculpture and a timber framer. Along with showing her work, she will show how she makes it and where she finds her sometimes-unusual materials. Her works range from kitchens (tree to cabinet), a recent Lexington church steeple restoration, to her sculpture, which honors tools and animated creatures, built from shop discards. She will also be sharing her experiences in Scotland two years ago where she helped build a Trebuchet and knock down a castle for a PBS Nova show. The meeting will be on Wednesday, January 30 at 7:00 PM at the Al Bahr Temple, located at 5440 Kearny Mesa Rd. (behind the Hampton Inn)

See you there, **Del Cover, Program Chairman**

Raffle

January Raffle

We'll have seven great raffle prizes there just for the taking at our meeting. "Taking" means holding a winning raffle ticket, so come early, fondle the prizes and bring lots of cash for tickets.

We particularly want to thank Mike Easterling of East-West Hardwoods for donating some great wood, Bill Kohr, owner of Craftsman Studios at the Unicorn Mall, 7th and J Streets downtown, Tool Depot and ToolMart, our newest Resource and replacement for Junior's Tools, which has closed its doors in a merger with ORCO tools. ORCO is oriented more toward contractor tools and supplies than either Junior's or ToolMart, but they welcome your business in their specialized area.

In another development, Hardwood and Hardware will be moving from its Kearny Mesa location to Miramar Road, but will remain an enthusiastic sponsor. Russ says they just had to have more space for their expanded inventory. Success for H&H and good news for us. More about that when the move-date is finalized.

Here is the entire list of prizes for lucky woodworkers:

1. Makita 9.6 Drill Driver, Flashlight, 2 batteries, charger and case
2. Skilsaw 7 1/4 " 11 amps of great performance A handy tool.
3. Porter Cable 693 Router kit with Plunge and Regular bases Always a popular prize
4. Lie-Nielsen Miniature Chisel Plane A Beautiful Tool! Better than the Stanley Original
5. Bosch 3727DVS 6" Random Orbit Sander You'll use it every time you're in your shop
6. Dremel Multi-Pro carving kit. Great for decorating and finishing touches.
7. The usual bucket of surprises with interesting tools, wood and whatall

Tickets go on sale at 6:30. Come early and get lots of good ones

Bill Collins, Raffle Chairman

SHOP TOUR

Frost Hardwood Lumber Shop Tour - **NOTE UNUSUAL TIME**

0800 - 0900, Feb. 9, 2002

Jim Frost will be our tour guide for the February Shop Tour at Frost Hardwood Lumber. You have probably bought lumber there and wanted a look inside all those sheds, at the mill facility, in the lumber dryer, and all the nooks and crannies you didn't know existed. The tour is earlier than usual so that we don't interfere with business on Saturday morning. Be there or be square. Coffee and donuts as usual.

Frost Hardwood Lumber is at 6565 Miramar Road. Plenty of parking in their lot.

Third Annual Toy Workshop at Palomar College.

By Gordon Collinson

There has been always been a mutually beneficial partnership between the San Diego Fine Woodworkers Association and The Cabinet and Furniture Technology Department at Palomar College. Continuing this relationship our Toy Committee and the College have been holding a workshop to, (what else?) build toys.

This is the third year of an annual program, where for three Saturdays the students PAY to build toys. Can you beat that? This year they arrived on the first Saturday, November 3rd. to find workbenches labeled with the names of toys to be built by the team at that work center and the name of one of the seven team leaders from our toy committee. All of the special parts needed for that particular toy such as wheels, pegs, dowels and jigs, had been provided and were in place at each work center.

The students chose which team they would like to work in and following a brief lecture from Charlie Bierman on some of the unique differences in toy building they set about building batches of 30 or more toys under the direction of their team leader. If you have built toys at our workshops you know that all of the bugs have been eliminated from the instructions and the designs refined for production. Because of this everyone appreciated that their efforts were 100% productive. On two later Saturdays the drilling and sawing, sanding and assembling, gluing and finishing and painting continued until we finally had rows and rows of beautifully made and finished grasshoppers and circus seals, doll beds and cameras, helicopters and bumble bees, kid size stools and cell phones and puzzles, all gleaming in bright colors or natural wood finishes.

It was good fun to work together and to be doing something nice for little kids that do not have a lot to be happy about. SDFWA President Ed Gladney visited and expressed his appreciation to everyone on behalf of the SDFWA and the needy kids. Well, all good things come to an end. The teams finally set up a display of completed toys, chatted and took photos. We had agreed that everyone would take home one toy for their own favorite small person and choosing which one was fun too. Then we packed up the toys, to be taken to our Pro Bono Chairman for delivery to agencies throughout the County. Of course we will be doing it all over again next year but we have set up a tough goal to beat.

If you live in North County help us out and join in next fall

Thanks are in order to Charlie Bierman and team leaders, Jerry Blakeley, Doug Linner, Bob Frederick, John Markall, Maurice Sasson and Harry Varnot, all of whom spent endless hours preparing for the workshop, and of course Palomar Instructors Chris Feddersohn and Gordon Collinson AND THE 40 STUDENTS WHO DID ALL THE WORK.

Ladder Back Rocking Chair

By Russ Filbeck

In this time of tragedy in New York City, I feel quite helpless, yet I need to do something to help those people who are suffering so much.

I teach a class in Windsor and Appalachian Ladder Back chair making at Palomar College and I want to donate a Ladder Back rocking chair to the New York City Fire Department. My desire is that the families of the injured fire fighters use this chair as they sit by their loved ones hospital bed. I request that the chair be retained by the Department and made available to any fire fighter's family when the fireman is injured in the line of duty.

I am donating the rocking chair in memory of all those fire fighters that lost their lives at the World Trade Center on 9/11/01 as they responded to the 911 calls for help. The title of this chair is appropriately "911". I want all the fire fighters (nation wide) to know that we all appreciate their sacrifices for us.

My name is Russ Filbeck. I live in San Diego, CA. I am retired from the United States Navy's Submarine Service, and a graduate of San Diego State University. I am an Associate Professor in the Cabinet and Furniture Technology Division at Palomar College located just north of San Diego in San Marcos, CA.

Each summer I travel from San Diego to Berea, Kentucky to harvest green (fresh cut) oak, walnut, maple and cherry as well as the hickory bark for weaving the seat. The green wood is necessary for the steam bending process used to make these Classic American chairs.

This cherry rocker incorporates steam-bent back legs and slats with bent lamination rockers. The slat pegs are made of rose wood and the seat is woven with the inner bark of the hickory tree. The finish is an oil finish, the oil sanded into the wood to create a sensuously smooth surface.

The laser engraving on the slats was donated by Keepsake Creators, San Marcos, CA. The packaging for the rocker was donated by San Diego Crating and Packing, Poway, CA. Shipping donated by Trans Group of San Diego, CA. Photography donated by Archie Breeden of Escondido, CA.

My hope is that the chair will comfort those who are suffering.

Russ Filbeck, Associate Professor, Palomar College 11088 Delphinus Way San Diego, CA 92126-4706 (858) 566-9699 rcfilbeck@aol.com

DESIGN IN WOOD

The new year brings us to our 21 Annual Design in Wood Exhibition and with it some ever increasing improvements in the show. This year we anticipate having a whole host of donated awards. Most importantly for you as members of the San Diego Fine Woodworkers Association is a new award just approved by the Board of Directors. The President's Award has been expanded and modified to encourage greater participation by San Diego Fine Woodworkers Association members in the competition.

This year we will have two (2) President Award categories – Professional and Amateur. To define these categories, an entrant maybe considered an amateur if they have never received an award at the Design in Wood Exhibition. Any member who has been recognized with an award from the Design in Wood Show, for the purpose of this award, will be considered a professional. The member's entry will be marked accordingly when they are receipted for the show.

In addition to the President's Award, we have even more cash to give out this year. This year the Fair is adding a fourth place award in all classes. The following Fair awards will be given in each class: 1st - \$200, 2nd - \$175, 3rd - \$150, 4th - \$75.

We will also have some new donated awards this year. One exceptionally generous award is the American Furniture Design Company Award which will be a plaque and \$250 cash.

Returning donated awards are:

Fine Woodworking Magazine- "Best of Show" – chosen annually by the Executive Editor, Tim Schreiner.
Wood Magazine – Excellence in Workmanship
Popular Woodworking Magazine – Excellence in Design
Apollo Sprayers, Inc. – Excellence in Finishing
Woodworkers Journal – 2-year subscription to 4th place winner in each class
San Diego Woodturning Center
Woodworker West Magazine – People's Choice

Tropical Exotic Hardwoods of Latin America will present the Sponsor's Choice Perpetual Trophy.

Prize money is now in excess of \$15,000.

What more incentive do you need to get working on your masterpiece?

As for the show set up, our tentative schedule is as follows:
