## **January Program**

**Drawing and Designing Your Project**

**by Lon Schleining**

The January program will be on drawing and designing your next project. Lon Schleining, writer for Fine Woodworking and Fine Homebuilding Magazine will talk about how to draw your project.

Lon has written over 60 articles for Fine Woodworking and Fine Homebuilding along with 3 Taunton woodworking books The Workbench, The Complete Manual of Bending, and Treasure Chests. He also recently published plans for building a replica of Thomas Jefferson's Lap Desk.

"It isn't every day Lon Schleining runs into a difficult challenge with the woodworking he does... its just about every **hour**. The way he figures out what to do next is to draw; usually full scale in as much detail as he can manage. The trickier the project, the greater the need for a plan; especially one you draw yourself. Designing full size is easy, lots of fun and if you avoid even a single boo-boo you were about to make, it can be a real time saver."

See you there.

## **From the President...**

I hope everyone had a great holiday season and are looking forward to 2012.

**\*\*\* Don't forget to renew your membership ASAP \*\*\***

I would like to thank all our members for their support over the past year, especially our Board and Chair Members. It takes a lot of people to make our organization run as smooth as it does and we are always looking for extra help. We need someone to take over for Al De Vries as Swap Meet Chair and our Publicity position needs filling too.

As you know, our elections were held during the annual meeting last November. Jim LaGrone was elected as the Vice President, taking over for Dave Henry and Bernie Burke, filling the Treasurer position for Doug Parker. Both Dave and Doug did a tremendous job during their tenure and will be missed. Thank you for serving!

I regret to inform you of the loss of Tom Henderson. Tom passed away in November. He previously held the position of Vice President and was very actively involved with the Chair Shop during the Design in Wood show. Tom loved working with wood and truly enjoyed being a member of the Association. He will be deeply missed. His cousin, Linda Phegley, made a donation in Tom's name to the Association. Thank you Linda for your generous donation.

2012 promises to be another banner year for our Mentor Program. If there is anything in particular that you would like to learn, please contact Ed Gladney ([Gladney@san.rr.com](mailto:Gladney@san.rr.com)) and if there is enough interest in the topic, he will set up a class. We can also use help from anyone willing to teach a class or hold one at their shop. Please see Ed's articles in this and future newsletters.

**Robert Threm, President** [sdfwapresident@cox.net](mailto:sdfwapresident@cox.net) 619 993-8207

## **Sponsors**

Thanks to all our sponsors over the past year. Our members, along with the community we serve appreciate your generosity during these tough economic times. We will continue to shop at your stores and promote your businesses at our meetings and during our events. Thank you for your continued support.

---

## **Publicity Chairman**

We are looking for someone to fill the position of Publicity Chairman. If you want to help the SDFWA get recognized out on town or in the media, we could use your help. Please have some background in the publicity or advertising field, computer experience and the willingness to help promote the SDFWA in the way it deserves. If interested, please contact Robert Threm at: [sdfwapresident@cox.net](mailto:sdfwapresident@cox.net) 619 993-8207

---

## **Swap Meet Chairman**

If you'd like to get more involved in the Association on a limited basis, this is your chance. The SDFWA holds the swap meet twice a year, November and April. This position affords you the opportunity of getting your feet wet while filling a much-needed opening within the club. If interested, please contact Robert Threm at: [sdfwapresident@cox.net](mailto:sdfwapresident@cox.net) 619 993-8207.

## **Design in Wood**

2012 brings us to the 31st Annual Design in Wood Exhibition. Each year we strive to improve this International Competition of Fine Woodworking. We have major commitments from our many corporate and local sponsors. This year we have added two (2) new classes of woodworking for those who use computers to design and execute their work through the use of CNC and/or lasers.

- Furniture Designed and Executed by Computer - Laser and/or CNC
- Veneering/Marquetry Art Designed & Executed by Computer - Laser and/or CNC

New awards have also been added:

- The American Woodworker & Woodwork Magazine editor, Randy Johnson, has added another "Best of Show" Award. Now we will offer "Best of Show" for Furniture and "Best of Show" for other than furniture. Each "Best of Show" Award is for \$1,000 and selected by the editor.
- California Carvers Guild has two awards:  
Stylization Excellence -\$150  
Stylization Originality -\$100

The Design in Wood Planning Committee will be meeting the first Saturday of each month, January through May 2012. Our job is to make a fabulous venue for woodworkers to show their work.

Now you need to get busy and make that masterpiece and show it off to the more than 1.4 million people who will visit the exhibit in 24 days from June 8 to July 4, 2012. The Design in Wood Entry Form for the 2012 Competition is attached to this newsletter. Please use this entry form to mail in your registration. To enter online at [www.sdfair.com](http://www.sdfair.com), you will have to wait until about February 15, 2012. Routers along with their many jigs and attachments are one of the most used machines in today's workshop. The operations possible with routers are almost limitless. He also demonstrates several operations and some of the many jigs and operations possible with this machine. He also demonstrates how to mount routers upside down in a table and expand their capability even further. This is a good class for beginning and intermediate woodworkers.

## **February Mentor Program – Hand tool Sharpening**

### **Hand Tool Sharpening**

**Saturday, February 18, 2012 9AM – 3PM**

**Dale Stauffer's Workshop**

**11750 Eucalyptus Hills Drive**

**Lakeside, CA 92040-1304**

Nothing is more frustrating than taking a tool out of the box and having it not work properly. Power tools have spoiled us. Unpack them, plug them in, and away we go. This is not the case with hand tools. Hand tools need conditioning before they will work properly. This brings me to the next mentor class topic, hand tool sharpening. Hand tools are never sharp out of the box unless you are lucky enough to unpack a \$5,000 Holtey hand plane. Even Lie Nielsen hand planes can use a tune up.

All hand tools require sharpening and one must master this technique before getting good results. There are many sharpening methods available today; oil and water stones, diamond stones, sandpaper on glass (scary sharp method), the Tormek and Worksharp machines. We will try to cover as many of these as possible but we are still working out the details and it may take more than one session to cover everything and everybody.

Please note that this class will focus on bench hand tools, plane blades, chisels, inshaves, scorpis, spokeshaves, drawknives, scrapers, etc. We may discuss other tools such as router bits, drill bits, turning tools, carving tools, handsaws and power tools but the focus is bench hand tools. This will be a hands-on class. Bring your own tools to sharpen. Detailed information will be available to the participants before the class. Dale Stauffer has graciously volunteered his shop. Sign up will be available by email and/or at the meeting on a first come basis. If we have an overflow, we will hold another class.

*There is a \$10.00 non-refundable fee for this class. Pay at the meeting or at the door.*

Space is limited -Sign up at the January meeting or send an email to [sdfwaMentor@san.rr.com](mailto:sdfwaMentor@san.rr.com)

# Letter from the Editor

As we enter the new year, the board and the membership have the goal of making 2012 the best year yet for the San Diego Fine Woodworkers Association. Collectively we are looking for your input and new ideas to make the association better and to bring more member feedback, lessons, and knowledge to the membership.

As the newsletter editor, my duties are to bring you all of the news from board and to ensure each of you are informed about all of the great things our members are involved in like the toy program, mentor programs, and various donated time and projects around the county. However, in looking back over the past newsletters I noticed a big gap in the information – NO ARTICLES FROM YOU!

You are the SDFWA. Without you taking the time to join and share with our organization (and without your passion for woodworking), the SDFWA simply wouldn't exist.

When I joined the organization in 2010, I did so in order to gain knowledge from the experience that you all have garnered over the years. I also wanted to share my (limited) knowledge and skills as much as I could. At that very first meeting, one of our members, Stig Lundberg (you'll see his impressive shop in March), asked for help with his CAD software. Being the computer geek that I am (yes, sad but true), I jumped at the chance to swap a little software training for some woodworking knowledge. Stig and I have been fast friends ever since, sharing our woodworking stories and skills.

2011 gave me an opportunity to become more of a working part of the organization, when I took over the Newsletter Editor duties from Ron Rossi – and I have to admit, it's a bit tougher than I thought!

Since taking over the duties last October, I have been looking for ways and ideas on how to improve the newsletter. That prompted me to look back at past editions and to solicit some input from the membership and the board. In our last newsletter (November), you saw for the first time in the newsletter some pictures and input from a shop tour and from the September seminar.

Now, the board, the membership, and I need your input!

Each month, I'd love to publish an article from two or more of our members about anything woodworking. The article can be something as simple as how to build a birdhouse to something more daunting like marquetry. You could write an article on the lessons you learned on your last project, something your mentor passed on to you, or just a humorous anecdote about an 'oops' you once did (like when I realized the value of checking the plans to ensure EVERY cut was made **before** gluing up! \*doh!\*).

You have the knowledge and experience that we want to hear. Your woodworking skill level is irrelevant, as you all have unique knowledge and experience that no one else in the organization does regardless of how long you've been working your craft. I know I've garnered many tips and tricks just from listening to the other members speak to one-another at the general meetings – let alone during the programs presented at each general meeting. Oh!, and don't worry about grammar, spelling, or punctuation – I can help you out with that. ;-)

So, members of the SDFWA, ... *Who's first?*

Send your articles to me by email, snail-mail, or bring them to the next meeting!
