July Program

Temples, Tools, & Sake

Chris Feddersohn, Russ Filbeck and 9 woodworking students from Palomar College went on a tour of Japanese temples, woodshops and blacksmith shops last April. This trip included 2 days at the famous Kezurou-Kai competition.

This is where Japan's finest woodworkers compete in making the thinnest and longest wood shavings. Their presentation will include slides from the competition, tool shops in operation for generations. Blacksmith shops and restoration projects of buildings over 1300 years old and other fascinating places not usually open to the public. They will share with us interesting stories about shopping for tools, new and antique, a stay at a Zen monastery and how the art of woodworking is being passed down in Japan.

Del Cover, Program Chairman

From the President...

The 21st Design in Wood show is over and once again thanks to all the volunteers it was a great success. Each year it is a little different and each year it gets better. To quote Fine Woodworking magazine, San Diego Fine Woodworking Association's annual Design in Wood show is the "best woodworking show in the nation". Bob Stevenson, his staff and volunteers deserve our gratitude for all their hard work. We have some great volunteers who each year devote their time during setup, tear down and during the show to make this show the great success it is. We really appreciate all your help. The chair shop produced 50 chairs again this year. They will be available for you to pick up and finish at the meeting. Finishing instructions are included so take one or two chairs to finish over the summer. I had several recipients of our chairs come up to the chair shop and thank us for our donations. It makes all worthwhile to see how much they are treasured.

We have another great fall seminar planned. Gary Rogowski on building mission furniture. **Get your tickets by July 31st to insure getting your book at the seminar.**

Our program this month will be Chris Feddersohn who will present a slide show on a recent group trip to Japan where they were hosted by many woodworkers. You don't want to miss this one.

Also, we will have our SDFWA award winners and our college and high school scholarship winners at the meeting to show off their pieces.

See you at the meeting.

Ed Gladney, President

Raffle

July Raffle

The Really Big Prize is back this month. It's the Jet Mini-lathe, the most popular prize we've ever had. It's small enough for any shop, and powerful enough for the biggest. Be sure to put a few tickets in the hopper for this one.

But that's not all. Six other raffle prizes include a One-inch Strip Sander for doing all that tedious edge sanding and final shaping. Jack Thurman uses the one in our shop at least an hour a day making cutout figures smooth and safe for little fingers at Children's Hospital. Special thanks this month for great pricing from sponsors Lane-Stanton Vance and Tool Depot, both long-time supporters of our Association and the Raffle.

Here's the complete list:

- | | |
|---|--|
| 1. Makita Sawzall | A really handy tool for a lot of hard jobs. |
| 2. Makita Cordless Drill and Flashlight Kit | Who could do without one of these?
The rechargeable flashlight is great, too. |
| 3. Porter-Cable 693 Router/Plunge Router Kit | A traditional prize for the past five years |
| 4. Amana 10" ATB Sawblade PLUS 5 Amana Router Bits | Great quality useful tools from Lane-Stanton |
| 5. Jet Mini-lathe | Did I mention this before? |
| 6. Delta 1" Strip Sander | A good suggestion from a member and a good price at Tool Depot |
| 7. The usual bucket full of interesting tools, accessories and interesting wood | |

Ticket Sales start at 6:30, and only at the meeting. Come early and support this fun event. Every penny supports the purchase of prizes... More support means more and better prizes.

Bill Collins, Raffle Chairman

Membership Report for July 2002

As of 7 July there are 1500 members enrolled. Renewals from 2001 are 80.5% and 214 new members have joined in 2002. The twelve enrollees at the Design in Wood Show is the lowest number in some time. Have we saturated the market? I talked with a couple of prospects who were visiting the Chair Shop so I expect there are still some likely members still out there.

Len Wener, Membership Chairman

Shop Tour

Keep September 28th free for a shop tour with SDFWA member Alice Roth Suszynski. Alice is a shop teacher and a well-known furniture designer and builder. Some of you may have seen Alice's mission style hall bench at the Design in Wood Show. Directions and details will be provided in the September newsletter.

La Jolla Playhouse Shop Tour Report

On May 25 about 30 SDFWA members gathered outside the La Jolla Playhouse Scene Shop for a tour of the shop and theater. Ron Ranson, Theater Design Professor at UCSD (Photo on left above) led the tour which was also conducted by Frank Mondana, Technical Director for the Playhouse. As Ron's picture indicates, he teaches that you have to draw your design before you build it, a principle that most of us should, but probably don't, do. Frank Mondana then takes over and sees to the building. That's his shop in the center. A recent construction was the guillotine shown on the right, with Tartuffe's body already in position. In fact, the guillotine was a rather easy project. Mondana also oversees the construction of such things as the revolving stages which the theater often uses and all the other amazing sets which the Playhouse uses. When you see the sets up close and the technical means used to make things fly in and off the stage, you realize the high level of professionalism that goes into design and construction at the Playhouse. Many thanks to Ron and Frank for an eye opening tour.

Peter Tobias, Shop Tours Chairman

Toy Program

Since our last newsletter the following toys were turned in:

7	Station wagons	Anonymous	3	Tractors	Anonymous
6	Cars	Anonymous	20	Telephones	Eva Hickman
1	Puzzle	Susan Kochel	10	Cars	Tom Henderson
21	Cars	Dallas Breed	10	Cars	Richard Meyers
18	Cars	Dick Ugoretz	1	5 car Train	Al Theotsald
19	Tractors	Chuck Goldsmith	25	Big Foot	Chuck Goldsmith
60	Cars	Chuck Goldsmith	10	Tractors	Frank Butler
7	Big Foot	Frank Butler	60	Cars	Frank Butler
125	Cell phones	Jerry's Shop	50	Weed Whackers	Jerry's Shop
12	Tool Boxes/tools	Jerry's Shop	22	Cars	Various/anonymous
15	Tractors	Frank Butler	46	Cars	Frank Butler

Total 549

Total to Date 1452

Harry Varnot, Toy Chairman

Cut Out Program

Since our last newsletter the following have been turned in:

10	Eva Hickman	8	Carl Drake
43	Doug Smalheer	7	Marge Fogerty
150	Douglas Parker	150	Collins Shop
		35 Nameplates	Collins Shop

Total 368

Total to Date 1799

Memory Boxes 3 Carl Drake

I will have wood at the meeting for those who wish to participate in the cutout program.

Jack Thurman, Cut Out Program Chairman

Video Library Report for July 2002

Effective 4 August 2002, Bob Reese will take over as Video Librarian. Any requests for videotape loans made after 31 July should be mailed to Bob as well as videotapes being returned. His address, phone number and e-mail address are

Robert Reese 10886 Aviary Court, San Diego, CA 92131 858-695-2460 rtreese@juno.com.

As you know, postal rates were increased effective 30 June 2002. Also, we cannot use the Library Rate; it is restricted to mail between libraries. These two changes have increased the postage for our videotapes from \$1.26 to \$1.42, each way. Adding the cost of mailing labels, boxes and sealing tape brings the round trip shipping cost of a videotape to \$3.17, which doesn't include the cost of the videotapes. Any change in loan fees awaits future action by the Board of Directors.

Basic Drawer Construction (Cliffe) was borrowed, but not returned and, therefore, is not available. There does not seem to be another copy available in the market.

Leigh Dovetail Jig (Leigh Industries) cannot be located. If any member knows its whereabouts, please let us

2002 Design in Wood Show

"Thanks for a Great Job."

This year's Design in Wood Exhibition was a resounding success. I can't remember when in the past that such a large number of visitors commented on the beauty and quality of the pieces on display.

First time visitors as well as those who come to see us each year also stated how nice the exhibit looked and the way the pieces were displayed.

First I want to thank my staff for a superb job. Harry Feucht, my assistant, and Melissa Ciandro, Jo Nall, Sharon Pierce, Jack Thurman, Ron Rossi, Don Spangler, Tom Johnson, Dale Stauffer, Lou Rodriguez, Martin Ruch, Ed Gladney, and Charlie Uhl. Great Job!

To all the wonderful volunteers, we couldn't have hosted this exhibit without your help. There were 61 volunteers on Sunday and 30 on Monday that helped to set up in record time and because of some of your suggestions we will set up and take down even faster in coming years. Thanks so much for your help!

To all of the volunteers who signed up to work the exhibit, those of you who walked the floor, worked in the demonstration areas, and worked on the committee, a HUGE thanks for your help! Even though I am not listing all of your names you know who you are and you can be extremely proud. For every person who came up to me throughout the fair and stated, "What a wonderful show...you folks do a fantastic job year after year," they are actually talking to you.

There are a couple of people who worked extra hard this year and deserve special recognition: Pete Schmuckle, Dick Conger, Don Spangler, and Jeff Burns. Your extra effort is really appreciated.

To everyone else that I may not have named individually, your time and effort is especially appreciated. To the board members, our photographers Lynn Rybarczyk and Andy Patterson, the web manager Jim Sykora, our sponsors, and especially our entrants, without each and every one of you Design in Wood would not be the best exhibit of fine woodworking that is.

Thank you one and all. It is a real pleasure to be in your company.

Sincerely,

Bob Stevenson, Coordinator, Design in Wood, SDFWA, Shows & Exhibits Chairman

If you forgot to turn in your temporary name badge after the end of your volunteer shift at the Design in Wood Show, please give them to Jack Thurman (Merchandise/ Cutout Tables) at the July meeting.

Scholarship Award Winners

The SDFWA scholarship program is one of the most important activities of our association. Two dollars of each member's annual dues are reserved for scholarships. Scholarship applications are distributed each year to local high schools and the woodworking program at Palomar College. Palomar scholarships are judged and awarded at their annual year-end banquet in June. The pieces are then put on display in the Palomar exhibit at the San Diego Fair. This year we awarded four \$400 Palomar College scholarships to the following individuals.

Ray Brooks	Maloof style rocker in Curly Maple
Curtis Chism	Guitar
Wilson Gilinsky	Mahogany tilt-top Pie Crust Table with ball and claw feet
Greg Wease	Craftsman style Bedside Cabinet in white oak

SDFWA representatives judge High School Scholarships at the fair prior to opening day. The scholarships are awarded as part of a special awards breakfast held during the fair. This year we had 35 high school applications returned. This is a big increase over past years and we awarded four \$300 scholarships to the following individuals.

Eric Eller	San Pasqual High School	Coffee Table in Walnut and Maple
Rahul Garg	Francis Parker High School	Grandfather Clock in Oak
Molly Parks	Coronado High School	Chunky Mission Chair in Ash and Walnut
Amanda Wheeler	Francis Parker High School	Rocking Chair in Oak

Our scholarship winners have been invited to the July meeting to show their pieces.

SDFWA Design In Wood Awards

There are two categories reserved only for SDFWA members entering pieces at the fair. These are judged separately from other categories and classes. The Novice category is for members entering who have not previously won an award. The Professional category is for members who have previously won an award. This year's winners can be viewed on the Internet at www.SDFWA.org. SDFWA members' entries were judged at the Design In Wood and received the following awards;

1 ST place Novice	Richard Ugoretz	\$250+trophy	Table
2 ND place Novice	Jerry Beaudry	\$150	Maloof Style Rocker
3 RD Place Novice	Clint Engleston	\$100	Allison's First - Rocking Cradle

Winners in the "novice" category automatically move to the "professional" for future judging.

1 ST Place Professional	Paul Schurch	\$250+trophy	Game Table
2 ND Place Professional	Duane Bartok	\$150	Table with Slate
3 RD Place Professional	Russ Filbeck	\$100	Appalachian Rocker

SDFWA Mailing List

We currently have 145 members subscribed to our mailing list and the numbers are growing. In case you haven't heard, this is the email mailing list where we provide last minute information and reminders.

We try to plan events well in advance and notify everyone via the newsletter and web site. Unfortunately sometimes *Murphy* intervenes and it is necessary to make a last minute change to a location, time or date. Subscribing to the list will ensure you have the greatest possible notice about these changes.

This is not a chat room or anything like that and we don't give out your email address to anyone else. Occasionally we send an email when we have something important to share with the membership.

You can join from our website at this address: <http://www.sdfwa.org/memberapp.htm> just enter your email address in the box and click the "join" button.

[See you on the list!](#)

Bill Kohr, SDFWA Mailing List Manager

Merchandise

Members, who want their own shirts, jackets, etc printed with the SDFWA logo, should bring them to the July meeting with their name printed on a plain piece of paper and pinned to the bottom of each item. The cost is \$3.50 per item.

Jack Thurman, Merchandise Chairman

Wants and Disposals

As you all know the Wants & Disposals is open to current members only, that want to Buy, Sell, or Trade equipment or supplies. It is not for commercial ads.

To list an item Please call 858-549-3484 and leave only your name, identify your self as a SDFWA member, and an evening call back number.

When I call back, Please provide the following: Full Name, E mail address if you have one, The general area or Town of San Diego Co. were the equipment can be seen, Price range & describe the item. Bring a picture to the meeting and a brief talk or sales pitch. We do not have display area, so please bring only pictures to the General Meeting.

Bob Coates, Chairman Wants and Disposals

100- Wood. All or part, MAKE OFFER.

Contact Henry Wenc (858) 454-5315

I have some property at Lake Cuyamaca and I periodically need to clear around the cabin for looks and fire prevention. I have always just burned or trashed what I take out, but a week or so ago as I was making order in the woodpile, I realized I have about 20 or so (more at the bottom of the pile) manzanita burls that I have pulled out of the ground over the past couple of years. These range in size from 1-2 pounds to about 60+ pounds, with most in the 10-20 pound range. Most of these do need to be cleaned well prior to any sawings.

I am not artistic enough to use these for anything other than firewood, but I thought that some in the group might like these to fashion works of art. I would like to give them to anyone who can use them.

Contact Clif Cowgill, 619-281-9222

Wants

There are no wants for this issue

Mentor program

The SDFWA has started a mentor program to use the vast experience and capabilities of its members to help the less experienced and those without a fully equipped shop.

We plan to hold workshops for beginning woodworkers at several home shops. These gatherings will be limited to four or five people each and will meet once a month. Topics will include safety, proper tool use and basic techniques; kind of woodworking 101 classes.

We are compiling a list of members with home shops who would be willing to help other members start or complete a project.

For example, if a member needs some boards planed to a certain thickness he could call someone with a thickness planner and get some help.

We are not suggesting that you let people use your equipment; just give them some help and advice if they ask for it.

Tools beginning woodworkers might use help learning to use are:
thickness planners, jointers, panel saws, band saws

This is a new program and requires help from some of our more experienced members to make it work.

One of the goals stated in our by-laws is education. Helping new and less experienced woodworkers benefits us all.

I will be at the July meeting with a sign up sheet for those wanting to help get this program underway.

If you have any questions or if you're ready to jump in right away, you can call me at (858) 273-3055 or e-mail me at chucker@san.rr.com.

Chuck Anderson, Mentor Program Chairman

" WHICH BLADE TO USE "

With the great number of different table saw blades available, many woodworkers wonder just which to use for a particular piece of equipment or function. For a 10" dia. blade the number of teeth varies from 24 to 100, 3 different tooth shapes, 3 different kerf widths, and tooth hook angles from -5 deg. to +20 deg.

Since the basic machine for the woodshop is the table saw, the most common blade used is a 40 tooth combination blade with alternate tooth bevel, a kerf width of .125 in. and a tooth hook angle of 15 deg. This is aggressive enough for ripping lumber but can be used for crosscut operations. Blades expressly for ripping may have less teeth and a tooth hook angle of 20 deg. A thin kerf blade with a thickness of .80 in. is used to conserve expensive lumber or to allow use of a lower horsepower saw.

Radial arm saws always use blades with 0 deg. to -5 deg. hook angle. Most users utilize a 60 tooth blade, but at higher cost and perhaps smoother cuts, blades of 80 or 100 teeth are available. A premium blade would have 80 teeth and a hook angle of -5 deg. Tooth shape for wood is an alternate tooth bevel, or a triple chip tooth shape for man made materials and non-ferrous metals.

Dado blade sets are used to cut precision grooves for cabinetwork. The most satisfactory are "stacked" sets with two .125 in. kerf blades+ chippers, allowing combinations of dado widths from 1/8th in. to 13/16th in. in 1/16 inch increments.

Professional blades today have tungsten- carbide teeth, laser cut alloy steel plates, ground for flatness, with precision sharpening on CNC automatic grinders.

Baker Hardwoods Resigns as Resource

New owners of the Baker Hardwood Company in National City have apparently decided SDFWA's 1600 members are not worth the trouble; have withdrawn after many years as a Resource/Sponsor. Their new objective is to serve only large commercial accounts. We wish them well.

The following Resource companies continue to support the Association and solicit our wood business. Be sure to thank them by buying from them. Look in the Resource Listing for locations.

- Lane-Stanton Vance Lumber Company
- Cut and Dried Hardwood
- Hardwood and Hardware
- Mission Molding and Wood Specialties
- East-West Urban Forest Products
- Frost Hardwoods
- Rockler Woodworkers Store
- Tropical Exotic Hardwoods of South America

Bill Collins, Resource Chairman

VIDEO LOAN REQUEST

I wish to borrow one of the following videotapes and agree to return it within seven (7) days of my receipt of it. A postpaid return label and an order form are enclosed. I understand that a late return charge of \$1 per day may be assessed and that I am responsible for replacement of the tape if it is damaged or lost while in my custody. If your first choice is not available, you will receive your second choice.

Enclosed is \$3.00 to cover postage and handling. My choices are:
