July Program

SHELLAC APPLICATION AND FINISHING TECHNIQUES

Speaker: Vijay Velji

SDFWA sponsor Vijay Velji started woodworking as a teenager in the bustling city of Calcutta, India. His father designed most of the furniture for his house, and had it made by a local carpenter,

Vijay many spent hours at the carpenter's shop observing and learning to use hand tools and he grew up around shellac-finished teak furniture.

He came to this country over twenty years ago, and started seriously making furniture in his spare time. (At his day job, he's an Electrical Engineer)

Initially, he used nitrocellulose lacquer and polyurethane as finishes, but ultimately his love for shellac prevailed, and he has finished almost all of the furniture he has designed and built for his San Diego home with this all-around, flexible material.

He won Honorable Mention for his carved mirror frame and 2nd. Place novice award for the matching dresser at this year's Design in Wood show. Photos of both are viewable in the Gallery section of his website www.shellacfinishes.biz

Both prize-winning pieces are back home in daily use by his family, destined to become family heirlooms.

Vijay will demonstrate shellac application and finishing techniques the meeting.

Won't you come and join us for this informative program.

Ed White, Program Chairman

From the President...

Well, the 2008 **Design in Wood Show** at the San Diego County Fair was a rousing success once again. I truly enjoy looking at the exquisite work and come away very inspired. The show is undisputedly the best one of its kind anywhere and this is directly because of the contributions of SDFWA members to its achievement. Thank you to everyone who walked the floor, worked in the chair shop and helped with set up and take down. I'd like to congratulate the winners of the SDFWA President's Awards. With the help of Ed Gladney and Robert Threm, I had the honor of evaluating our member's entries and the very difficult task of choosing only six to receive the awards.

SDFWA also gave four scholarships to four high school students and four Palomar College students. Del Cover and Hurley Dodd judged the Palomar college entries and Ed Gladney, Hurley Dodd, Jack Stone, and I judged the high school student's entries. These scholarships are funded with \$2 of each membership dues received which means each member of our club has an impact on the future of woodworking. This year's winners are invited to spend a few minutes at the July meeting talking about their work. Please see photos of the winners and their entries later in this newsletter.

The deadline for the **Fall Seminar** is fast approaching. We have a great show lined up for the seminar and the opportunity to learn techniques and tricks from an excellent craftsman just doesn't get any better than this one. Buy your ticket to secure your spot at this month's meeting. This will be the last meeting before the seminar so bring your check book and claim your seat!!!

Len Werner, our long time membership chairman is taking a much needed rest. Sia McGown will be stepping in to assist in this very important chair position. Thank you to Len for all his hard work. Welcome Sia!!!

Do you have small wood scraps you just can't bear to throw away, but don't have a need for them?

Brian Gibson is the Museum educator at the Escondido Children's Museum. The museum is looking for wood scraps, cut offs, small throw-away pieces from your woodworking projects. We have a Woodshop exhibit where children glue little scraps together to make interesting constructions that they can take home. Generally, interesting shapes smaller than about 4" X 4" are the best size, but Brian can cut down larger scraps if that's what you'd like to donate to the museum's cause. Beginning July 1st, museum summer hours will be 10am to 4pm, Tuesday through Saturday. Bring the scraps in anytime during those hours and they can put them to good use! If there is a problem getting to the Museum (located in the California Center for the Arts complex), just call or email Brian and he might be able to pick them up from your shop. Work: (760) 233-7755, Email: bgibson@escondidochildrensmuseum.org.

I believe very much in the community projects which in our association participates. If you want to bring a box of scrap wood that Brian can use to the July General meeting, I will collect them and deliver them to him on your behalf.

Again, thank you to all members who have volunteered, assisted and make the Association what it is. This association could not make it without you!!

Sue Spray, President 760- 599-9663 or sue@suescano.es.com

Shop Tour

Place: Taylor Guitars
1980 Gillespie Way
El Cajon, CA 92020

Time: Thursday, August 7, 2008 (not the usual Saturday date) 10:00 am, sharp

Most woodworkers recognize that building a guitar is a difficult and delicate project; if you don't construct it just right, it won't sound right. The many classical luthiers in San Diego and SDFWA will likely be glad to agree. So, if you are a guitar manufacturer, and want to make a lot of quality instruments (Taylor makes hundreds each day), how do you do it? Taylor has built a highly successful business over the past 35 years using time-tested woodworking techniques, but heavily backed by high-tech innovations such as computer-controlled milling, laser etching/cutting and robot-driven finishing. Yet, with all the machines, critical steps demand human skill and judgment to arrive at the desired instrument. The tour will cover almost all of the stages in making a guitar, from wood selection through shaping and bending to final assembly, finishing and testing.

The conducted tour for SDFWA will begin promptly at 10 am, will last about 1 1/2 hrs and will be limited to 24 members because a headphone system is used to permit hearing over the noise of this working facility. If more than 24 people are interested, another tour will be arranged, or individuals can take the scheduled, open tour at 1:00 pm every day. A map to the Taylor site is attached. The building is best recognized by the easily-seen "1980" address numbers on the side. Parking is on the street or in the company parking lot. We will meet at the main entrance.

Please call/email if you would like to see this very interesting shop. If a second tour is needed, I will contact those affected.

Dave Henry, Shop Tour Coordinator 760-753-2484, dwhenry@simplyweb.net

2008 DESIGN IN WOOD

As I write this, the 27th Annual Design in Wood Exhibition is drawing to a close. Touted by visitors to the exhibit as, "This is the best yet." We find it extremely heartening to hear our efforts are appreciated.

The entries for this year's competition were exceptional as usual.

I want to take this opportunity to thank the many volunteers who assisted in manning the exhibit. To all those who volunteered to work in the shop and floor and help with set up and take down, thank you again for your support.

To all the folks who demonstrated in the booths – the carvers, the model builders, the scrollers and the wood turners, a great big well done!

To my staff, Harry Feucht, Ron Rossi, Sharon Pierce, Beryl Johnson, Carl Drake, Al DeVries, Tom Johnson, Doug Parker, Don Spangler, and Dale Stauffer. You are the best crew anyone could possibly ask for. Thank you from the bottom of my heart for all your enthusiasm. To the cabinet shop crew, Martin Ruch, Ed Gladney and Tom Henderson, your many hours making the chair shop run so smoothly is greatly appreciated. The shop activity with members actually demonstrating woodworking techniques to the public and making a huge donation to needy children at the same time has to be the highlight of what the San Diego Fine Woodworkers is all about. Thank you to the Fair Planning Committee for all your time and efforts.

And last but not least, to the Violin Makers and the Scrollers for their after hour's demonstrations. Thank you for all your efforts.

We did have some problems with the volunteer sign up process this year. My staff and I promise to do all in our power to resolve this problem. Thank you for your patience and understanding.

Bob Stevenson

MORE NOTES FROM THE SHOP MASTER

The Design in Wood show at the Del Mar Fair (it too) is over and the childrens chair--yes 50 solid seat and 4 cane seat chairs--are completed and ready for finishing sanding and applying an oil finish. They will be at the meeting Wednesday July 26 and I will have complete instructions for finishing. Please plan on checking out at least 1 or 2 and finish them up for the Sept meeting or the Fall Seminar.

I want to thank Ed Ducharme for sawing out the seat blanks; Jerry Pendzick for sawing out the back legs; the guys at Bill's shop for machining the aprons, rungs, front legs and glue blocks; Bob Stevenson and Tom Henderson for machining the back legs; and Tom Henderson for cutting out parts and the crest rail. Also Ed Gladney and Tom Henderson for spelling me as Shop Master.

Finally I want to thank all the other volunteers for their work in the shop. I apologize for some confusion and hope that I haven't offended any of you in this huge undertaking. I do know that the kids appreciate the use of the chairs. I hope you have gained some more skill and confidence in your ability.

Yours for finer wood working,
Martin Ruch, 619 2873966

Mentor Program

There will be a class on Toy making for beginners at Charlie Biermans shop on Saturday July 26, 9:00 AM to 1:00 PM. The class will be prior the meeting so no sign up sheet will be available. If you would like to attend please E-Mail me or call.

The Mentor program has two parts to it, the Education classes and the Help feature. The Education classes provide basic training on various woodworking tools and the Help feature allows members to call me for assistance with a woodworking problem. If I do not know the answer, I will put you in touch with someone who does. We can also assist members who have a limited shop by providing the use of various woodworking tools that you may not have.

For Example; a jointer, large band saw, large drill press, planner, wide belt sander or router table.

My E-Mail is chucker@san.rr.com

Phone # is 858-273-3055

Recycle Old Newsletters

Our sponsors are willing to hand out copies of our newsletter to prospective members. Rather than go to the expense of printing extra copies, it was suggested that our members donate their copies for recycling.

Please bring any Newsletters that you do not want to keep to the shop tour or to our general meetings or pass them on to a Board Member. There will be a box for them by the entrance at the meeting

Chuck Anderson will collect and recycle them with our sponsors.

Thanks for participating!

Toy Program

Since our last report the following toys & chairs have been completed:

47	Seals	Jerry's Toy Group	11	Cars	anonymous
479	Cars & Planes	Chuck Goldsmith	30	Rolling Rattles	Jim's Toy Group
3	Cars	Lau f Graham	10	Cars	Jay Atherton
13	Animal Puzzles	Valerie Markham	45	Stools	Joe Amaro with Montgomery High School

Our toy, chair, & table production total for this year is 1,996. Many thanks to all for contributing your skill, time and effort to bring our toy program to the needy. We helped make a lot of kids happy this year!

Your used woodworking magazines & books are needed!

Please bring your used woodworking magazines & books to our club meetings and donate them to the Toy Program. Your Toy Program resells them and raises funds to buy wheels and paint. We have many new magazines each meeting. You donated \$95 last meeting. Thank you.

Roger Solheid, Toy Program Chairman

SDFWA 2008 Seminar

Our seminar this year features Robert Lang, a world-renowned expert on arts and crafts furniture. He is the author of many books on craftsman furniture. He has published articles in all the major woodworking magazines and he is currently a senior editor of Popular Woodworking magazine. He is the author of several "Shop Drawings" books about furniture and interiors of the Arts & Crafts Movement of the early 1900s. He has set an aggressive agenda for this year's seminar. He plans to build an arts and crafts style sideboard designed especially for this seminar. It will be a unique new design, not included in any of his books. During the 2 ½ days he will be demonstrating not only the many techniques unique to arts and crafts furniture but also the basic skills common to all furniture building including the all-important design phase. The first evening will be an overview of his design process. This seminar will be loaded with information and a chance for us all to learn from a master woodworker. Bob will share his knowledge gained over 30 plus years as a professional woodworker. **You do not want to miss this one! Reserve your seat today!**

Free Woodworking Plans

Everyone likes free project plans especially when the plans are for items to make your shop better organized or for jigs to make your woodworking more accurate. The editors at *WOOD* Magazine recently rebuilt and added more free shop project plans to the Woodworking Plans <<http://www.woodmagazine.com/woodworking-plans/>> section at *WOOD* Online. The section is broken down by shop tools ranging from Bandsaws to Tablesaw Accessories. The Jigs section alone contains dozens of free plans to make you a better woodworker. The projects from these plans were all built in the *WOOD* magazine shop to assure your building success.
