**Issue 2**

**The Next Meeting is 7 pm, March 31<sup>st</sup>**  
**On The Ferryboat Berkeley**  
**next to the Star of India on Harbor Drive**

Parking is available at several pay lots around the area this may include the County Administration Building. The street parking meters are pay until 6:00pm. Come early, show your membership card and get to visit the ship used in the film Master and Commander.

## **March Program**

### **Model Building by Bob Crawford.**

Bob Crawford, model builder for the San Diego Maritime Association and Judge for the model building classes at the Del Mar Design in Wood show will give a program on wood model building both scale and not to scale. Bob has been building models for many years and will give us a tour of the modeling world. He will show us what makes a good model, how to scale a model, what scale to use (1 to 100, 1 to 10 or none at all) what kind of materials (type of woods) are best suited for model building, and how to finish models. Hopefully he will bring some of his models from the Berkeley Museum. For many of you, this may be an entirely new area of woodworking craftsmanship that you may want to explore. The meeting will be on Wednesday March 31 at 7:00PM on the Ferryboat Berkeley next to the Star of India on Harbor Drive. See you there.

**Del Cover, Program Chairman**

## **From the President...**

Entry forms for the Design in Wood show should be available by the time you get this newsletter. We have more categories and more prize money available again this year. In addition to the over 60 awards possible to every participant, we have six awards reserved just for SDFWA members. So get to work on your entries. Of course we need volunteers to help with every aspect of the show. The Design In Wood show requires lots of help from our members. We need your help for set up, tear down and also during the show. The biggest job is set-up. The more help the better. No experience is necessary, just show up at the fair grounds and we can put you to work. Bring a screw gun if you have one but it is not necessary. We even supply donuts and coffee and pizza for lunch. Look for details in the newsletter. We also need volunteers to work in the 18<sup>th</sup> century cabinet shop making children's chairs. Each year we produce about 50 chairs for charity. These are hand made during the fair by our members. It is a great way to learn and practice hand tool techniques. If you want to learn how they did it in the old days sign up and we will teach you some new methods. We also need volunteers to work the floor during the show. Sign up sheets for all shifts will be available at the general meeting. All volunteers receive fair tickets. The more you volunteer, the more tickets you get. Work a few shifts and treat your family. Besides being a lot of fun it is a good way to get to know your fellow members. This is our big event for the year so sign up and plan to help. Please see Bob Stevenson's message to sign up and help.

We still need volunteers to help with the many activities of the organization. If you think you can devote a few hours each month, please contact me or any of the board members. Planning is under way for the spring bus trip and fall seminar. More on this in the next newsletter.

Our meeting this month is aboard the Berkeley so remember to leave early to get a parking place and to have time to explore the ship from the movie Master and Commander. It promises to be a fun evening so don't miss it. See you there.

## **March Raffle**

### **Eight Great Prizes this Meeting**

We just couldn't help it! There were so many goodies to choose from we just had to add an extra prize and hope you guys buy enough tickets to pay for it. We'll go back to TEN prizes if ticket sales start to warrant it. REMEMBER: Every penny you spend on tickets is used to buy tools for the raffle. Compare that to the odds at any other raffle. Besides the usual favorites we have a big item and a new one. The Jet Mortising Machine is a big super prize, and the great Milwaukee Hammer Drill has never been on the prize table before. Both are worth buying a few extra tickets. That's just the beginning! Take a look at these prizes that could be yours.

- |   |   |
|---|---|
| 1. Ryobi 12" benchtop Drill Press   | No shop should be without a drill press |
| 2. Makita 9.6V Drill and Flashlight   | Two great tools in the same box         |
| 3. Jet Mortising Machine  | Quick, Easy, mortises and tenons        |
| 4. Porter-Cable 693 Straight and Plunge Router Kit                                  | For smooth effortless sanding           |
| 5. Lie-Neilsen 105 Small Block Rabbet Plane   | We use ours just about every day        |
| 6. Bosch 1587AV Orbital Jigsaw  | The best one on the market              |
| 7. Sixteen Forstner Bits and Eighteen Router Bits                                   | Thirty-four GOODIES for any shop        |
| 8. A Bucket of Good stuff... Tools, wood, gift certificates and who knows what-all? |   |

Tickets go on sale at 6:30. Buy extra tickets for better odds and to get a great bonus!

## **Shop Tour - Duane Anderson's Home Shop**

On Saturday April 10, 2004, at 9am we will have a shop tour of Duane Andersons shop in Escondido. (Shop phone: 760 480-1014).

Duane's shop is currently being used to craft windows and workbenches for the fire-damaged studio of artist/architect James Hubbell in Santa Ysabel. Duane, Chuck Meacham and Ray McNamara are doing the work, which uses rough-sawn cedar lumber salvaged from the "Pines" fire of 2002.

Duane's background has been the restoration and repair of antique spinning wheels and crafting new spinning wheels of his own design as a hobby while in Minnesota. In California he has been building class-room furniture and millwork for windows for the James Hubbell-designed school in Tijuana which is operated by the Americas Foundation.

Another recent project has been (with the help of Randy Morrow) the restoration of a 70-year-old farmhouse on a hilltop adjacent to his home property.

Duane's shop consists of two table saws, a 13" planer, a Performax drum sander, two metal lathes, a milling machine plus the usual bandsaw, sanders and assorted other equipment.

DIRECTIONS; I-15 to Via Rancho Parkway exit -- right on Via Rancho Parkway (stay in middle lane) to Mary Lane (past High School) -- right on Mary Lane to STOP sign at Summit Dr. (approx. 2 1/2 miles) -- right on Summit Drive -- 2658 is the first driveway on left.

I hope to see you there!

## **March Membership Report**

As of 5 March we have 1078 members enrolled. Of the 1655 members on 31 December 2003, 973 (58.8%) have renewed and 105 new members have joined for this year. Spousal member cards have been issued to 389 (36%) and 220 (20%) of the members have opted for the website as their newsletter source. The renewal rate is the same as last year at this time although, on a larger base, a greater number have renewed. Although new membership at this time is down, the total of 1078 is 6 more than on 5 March 2003.

As is usual at this time of year, despite notices in the November 2003 and January 2004 newsletters, we have had to mail 671 reminder letters to unrenewed members. Printing of the letters and envelopes (sending and return) and the mail preparation and postage costs about \$400. Membership applications are processed on the day received in our P.O. Box and new cards are mailed out the same day or the next morning.

I have received a number of phone calls and emails from "members" who discovered that they couldn't get a discount at one of our resource firms because their membership wasn't current. Don't get in this situation; **renew**.

## **Mentor Program**

Our intrepid in-house scroll saw expert, Dale Hower, will present a class on the care, use and feeding of the scroll saw on Saturday 17 April, 9:00am to 1:00pm. The workshop will be at his home in Santee. The class is limited to 12 persons.

A sign up sheet will be available at the March meeting or you can e-mail me.

Future classes will be announced in the newsletter.

# DESIGN IN WOOD

This month we should complete making 10 new display cases, which we will use at the setup for this year's Design in Wood Exhibition.

This year we celebrate the 23<sup>rd</sup> annual Design in Wood exhibition from June 11 to July 5<sup>th</sup>. The Del Mar Fair is closed Mondays, June 14, 21, 28. We need your help to make it happen. What can you do?

1. **Sign up to be a floor walker**
2. **Sign up to make children's chairs**
3. **Sign up to do both – floor walker & make children's chairs**

Each time you sign up for a shift you get two (2) free passes to the Del Mar Fair. The sign up sheets will be at the General meeting. If you can't make the meeting but know when you want to help, call Sharon Pierce at 760-470-1205.

As a floorwalker, you provide assistance by representing SDFWA and providing security for the exhibit. Although we have some staff working the exhibit, we don't have enough staff workers to cover the entire exhibit and need your help. No experience is needed. We will show you what to do. It is a great experience. If you want to help out in the 19<sup>th</sup> Century Cabinet shop, make some very special chairs for charity, and learn how to use some great hand tools, I can guarantee you will have a great time. Again: no experience necessary. We provide on the job training.

Set up this year will be on May 23 and continue all week and through the Holiday weekend. Because we need help during the week, I will have a signup sheet at the meeting. The days we need the most help will start on Tuesday, May 25 and continue all week through May 31. If you can help during any of these dates and can't signup at the general meeting, call Bob Stevenson, 619-422-7338, so we can put your name on the list. The pay is good. You can earn four (4) free passes to the Fair for each full day you help.

I want to thank everyone who has helped with the Display Case Project at Palomar College. All the extra work this year will be really appreciated next year when we cut the setup time in half.

## **DATES & TIMES TO REMEMBER - (CIRCLE YOUR CALENDAR)**

## **Merchandise Notice**

I am ordering Logo-monogrammed denim shirts to sell at the April Meeting. Members wishing to have their own shirts monogrammed can bring them to the March 31<sup>st</sup> meeting (with their name pinned to the bottom of the article), or they can drop articles off at Bill Collins' Shop at 632 NINTH Avenue downtown or at my home at 8379 Melrose Lane, El Cajon. Custom monogramming with this company is a one-time affair. The service will not be offered again for some time.

# **Pro Bono Report**

Mead Child Development Center  
750 45th Street, San Diego, Ca. 92102

Dear Mr. Vitale,

We want to express our gratitude to you for the wonderful handmade wooden toys the San Diego Fine Woodworkers donated to our preschool and after-school program. We were able to give beautiful toys to all 80 children in our program for Christmas. The parents were grateful, too, as some of them were not able to give many gifts to their children. The parents and teachers expressed amazement at the durable quality and beauty of all the toys. They were grateful that the Woodworkers get together to make these lovely things.

Please pass on our heartfelt thanks and appreciation to all the Woodworkers on our behalf.

Sincerely,

Teresa Norris and all the staff at Mead Child Development Center

## **Members help fire victim cleanup with a workparty near Julian**

It wasn't, the way any of us would have liked to spend the day, especially our host, SDFWA Toy Chairman Roger Solheid. There we were, an even dozen of us, on Saturday February 28th, on a mountaintop a few miles from Julian, stuffing the remains of Roger's beautiful vacation home and workshop into a dumpster. Wheelbarrow after wheelbarrow of mostly unrecognizable melted metal was loaded, pushed and dumped by willing volunteers, and a few big things like a log splitter, a pot-bellied stove, a bathtub or a propane tank were carried or rolled end-over-end by as many as it took to do the job.

Peter Tobias and Odie Brand set the pace. It was chilly, and remnants of a recent snowstorm were still on the ground, but it didn't take twelve hard working guys very long to work up a sweat and shed their heavy jackets. Harry Feucht kept the coffee and donuts coming all morning, and the sandwiches for lunch. But the dominant and most difficult problem was a VERY large water tank the fire had rendered unusable. The corrugated monster was eight feet around and fifteen feet tall until it met its masters, who pulled it over and chopped it into dumpster-sized pieces. Sawzall masters Chuck Luebbers, Jerry Blakeley. John Van Blerck and Roger himself turned the Big One into manageable pieces, with Gene Stinter and Don Summers taking their turns with saw and sledge hammer and generator management.

It looked like the construction dumpster was full to the gunnels and at its capacity until Jack Thurman climbed in to organize and rearrange the rubble and guide the rest of the team lifting and pulling and shoving heavy chunks of corrugated iron up and into the dumpster. It was hard to believe it all fit. All in all it was a gratifying day for all of us to be able to pull together to help our friend and fellow Association member.

Roger hasn't decided if or when he might build anew. It will take years for the beautiful trees to renew and years to recover emotionally from the loss of a home that was created over a quarter of a century. We were glad to be there with hands and hearts and tools and now we are standing by to help John and Sharon Pierce and Ron Gatewood who also suffered extensive fire damage.
